ABOUT Y.K.R

About us

Guangdong Y.K.R New Energy Co., Ltd. is an Air-Source Heat Pump manufacturer specializing in R&D, manufacturing, and sales of all types of heat pump products for Industrial, Commercial, and Residential applications. With a growing desire to improve people's lives and the quality of heat pumps, we are committed to providing lower energy consumption solutions to replace traditional heating, cooling, and hot water equipment while remaining environmentally friendly.

R&D advantages

With an experienced technical team and 2 comprehensive laboratories, Y.K.R has developed numerous series: Heating&Cooling+Hot Water Heat Pumps, Water Heater Heat Pumps, Swimming Pool Heat Pumps, Water&Ground Source Heat Pumps. Who also provides OEM and ODM services.

Our advantages

We have been in business for 15 years who based in Foshan, Guangdong, China. 5 large-scale heat pump production lines spread across 20,000m² workspaces, with a daily production capacity of about 500 sets. You could receive exceptional services from a qualified sales team with support from knowledgeable technicians. A seamless after-sales service will be offered, as well as a well-developed logistical infrastructure.

Quality control and technological innovation are Y.K.R's constant priorities. Our company currently employs 150+ seasoned production workers, 35 senior technical engineers, and we obtained 50 product patents. The products have acquired European EN14825 and EN14511 Energy Efficiency Certificates, as well as TUV, CE, IEC, ERP, SAA, CB, ROHS, and MCS certifications. In addition, the Chinese government has suggested Y.K.R as an energy solution firm to replace traditional boiler projects due to the benefits of safety, high efficiency, environmental protection, and low energy consumption from our heat pump.

As our slogan states, "For green energy and a comfortable life," Y.K.R has been focusing on continuous technological innovation to improve the quality of products and services and is committed to providing customers with high-quality air source products and the best green energy solutions.

Y.K.R operates a 20,000-square-meter factory with five flexible production lines and an annual output of more than 100,000 units, as well as two comprehensive laboratories for air-source heat pump research and development. With our precise quality control system, we always prioritize product quality. We have extensive experience in all aspects of heat pump development, testing, manufacturing, installation support, and after-sales services.

With more than 15 years of technological advancement and market strategy development, Y.K.R's products are becoming more and more well-known not only in China but also in more than 60 other nations and regions across the world. Positive feedback from all of our clients makes us very happy, therefore, continuing to offer customers expert energy solutions will always be our aim.

CERTIFICATES & AWARDS

CE Certification, SGS Certification, ISO14001 International Environmental Management System, ISO9001 International Quality Management System, OHSAS18001 International Occupational Health Management System, 3C Compulsory Certification, National Test Report, Provincial Test Report and many other certifications and patents. And won a number of honorary certificates such as China 3.15 Integrity Enterprise, China Quality Underwriting 3A Enterprise, China green environmental protection products, etc.

PRODUCTION LINES

5 flexible production lines, 20+ advanced equipment, 150+ experienced workers, standard production system to ensure daily output of around 500 sets.

COMPREHENSIVE LABORATORIES

Y.K.R has two comprehensive laboratories that meet the EU EN14511 standard and can simulate ambient temperatures ranging from -30°C~50°C to test heat pump operating performance with input power ranging from 0.8kW ~ 80kW and Hz Frequency 50Hz/60Hz.

TECHNICAL SUPPORT BY OUR ENGINEERS

Testing the performance of newly developed products.

Inspecting&Adjusting finished products before arranging delivery.

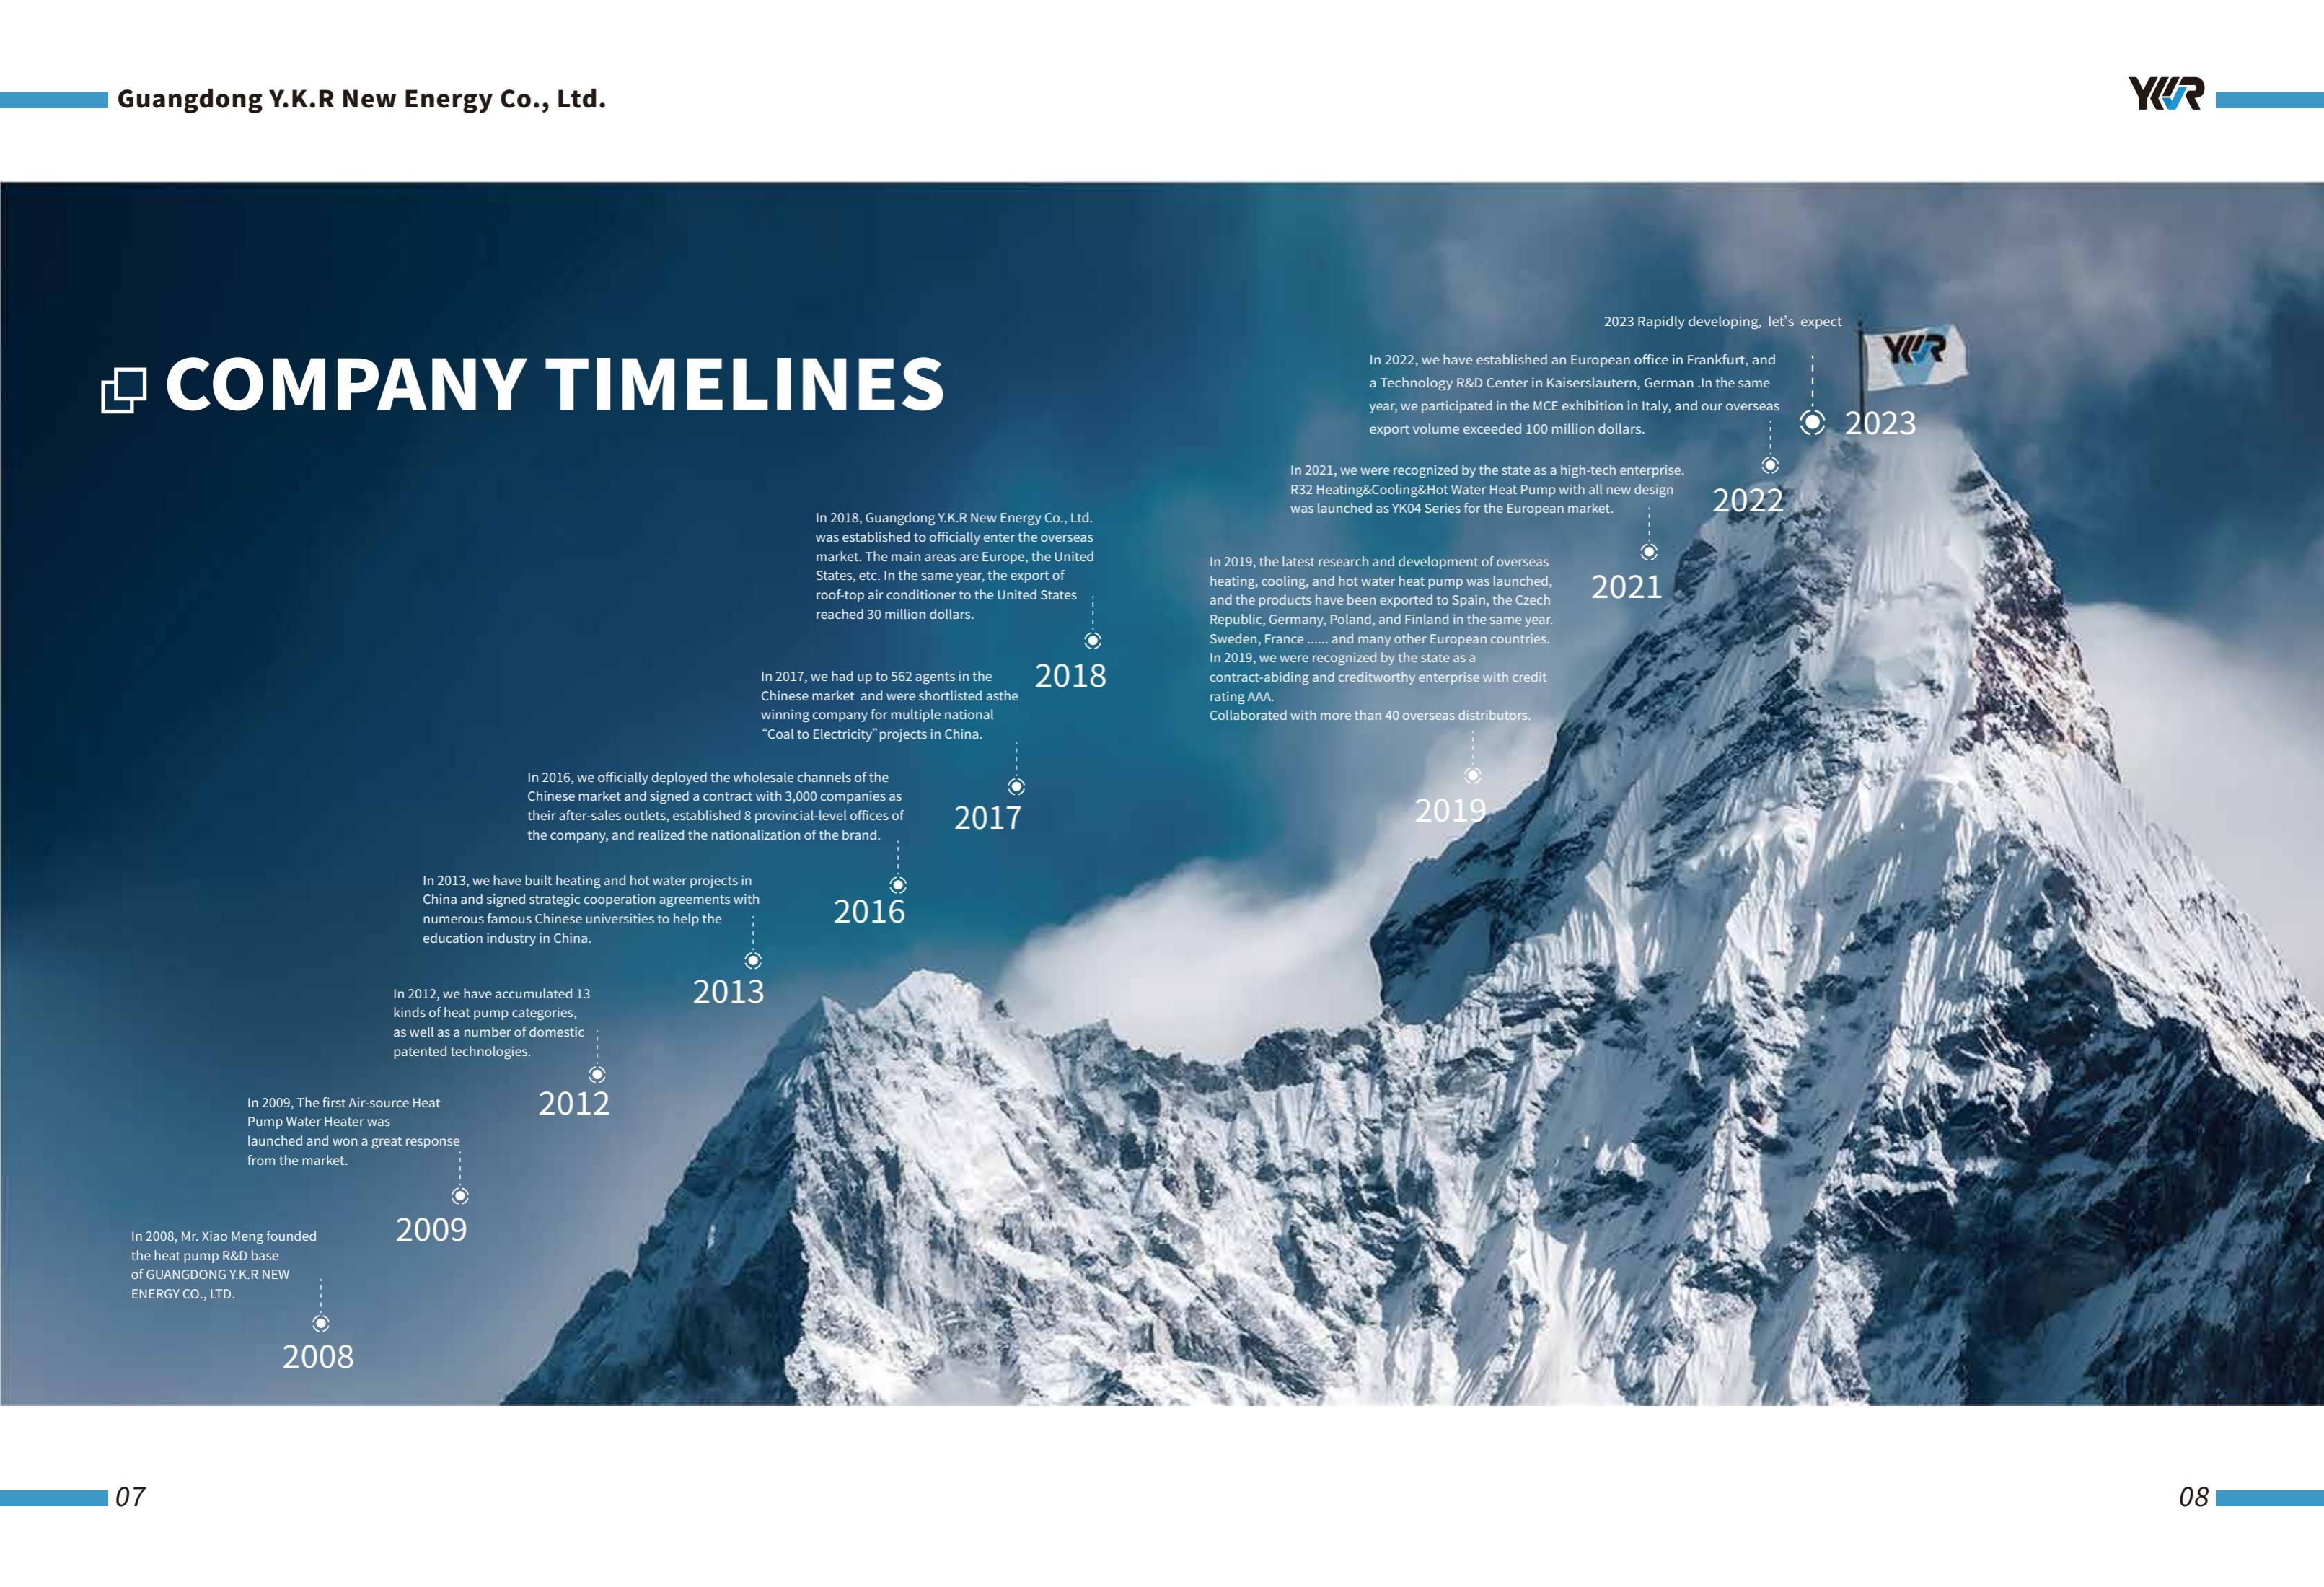

Support is offered for the product's installation instructions and technical queries.

Upgrading the products to meet local market demands.

Offering installation and maintenance instructions as well as component replacement.

COMPANY TIMELINES

- 
- In 2008, Mr. Xiao Meng founded the heat pump R&D base of GUANGDONG Y.K.R NEW ENERGY CO., LTD.
- In 2009, The first Air-source Heat Pump Water Heater was launched and won a great response from the market.
- In 2012, we have accumulated 13 kinds of heat pump categories, as well as a number of domestic patented technologies.
- In 2013, we have built heating and hot water projects in China and signed strategic cooperation agreements with numerous famous Chinese universities to help the education industry in China.
- In 2016, we officially deployed the wholesale channels of the Chinese market and signed a contract with 3,000 companies as their after-sales outlets, established 8 provincial-level offices of the company, and realized the nationalization of the brand.
- In 2017, we had up to 562 agents in the Chinese market and were shortlisted as the winning company for multiple national "Coal to Electricity" projects in China.
- In 2018, Guangdong Y.K.R New Energy Co., Ltd. was established to officially enter the overseas market. The main areas are Europe, the United States, etc. In the same year, the export of roof-top air conditioner to the United States reached 30 million dollars.

2023 Rapidly developing, let's expect

In 2022, we have established an European office in Frankfurt, and a Technology R&D Center in Kaiserslautern, German .In the same year, we participated in the MCE exhibition in Italy, and our overseas export volume exceeded 100 million dollars.

In 2021, we were recognized by the state as a high-tech enterprise. R32 Heating&Cooling&Hot Water Heat Pump with all new design was launched as YK04 Series for the European market.

In 2019, the latest research and development of overseas heating, cooling, and hot water heat pump was launched, and the products have been exported to Spain, the Czech Republic, Germany, Poland, and Finland in the same year. Sweden, France and many other European countries. In 2019, we were recognized by the state as a contract-abiding and creditworthy enterprise with credit rating AAA. Collaborated with more than 40 overseas distributors.

GLOBAL STRATEGIC PARTNERS

Y.K.R focuses on heat pump technology research and development, and we are always looking for qualified components for our heat pumps. We collaborate with numerous global brand suppliers, as well as our strong global supply network, improving the stability of Y.K.R heat pumps.

Y.K.R already provides Heating&Cooling+Hot Water heat pumps to consumers across the world, and we'll keep improving more affordable energy-saving solutions for them.

CORE ACCESSORIES

01

EVI DC-INVERTER COMPRESSOR

Panasonic from Japan and Emerson from the United States, heat pump frequency conversion compressors with Energy Saving, High Efficiency, Low Noise, and Stable Operation advantages.

04

DC FAN

Bringing Large Air Volume, Lower Energy Consumption, Lower Noise, and Longer Working Life.

02

PLATE HEAT EXCHANGER

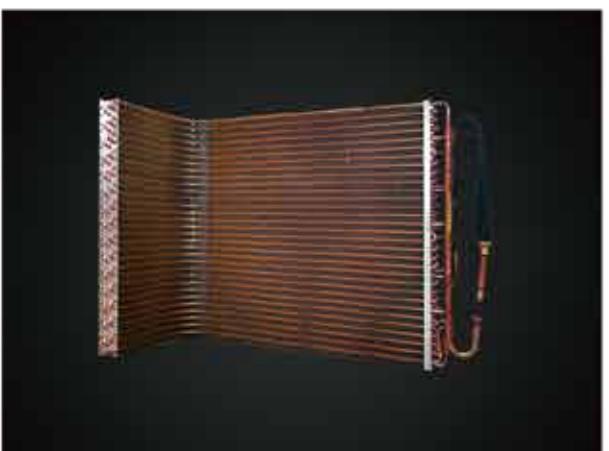

High Heat Exchange Efficiency, Lower Heat Loss, Compact Structure.

05

HUALU ELECTRONIC EXPANSION VALVE

Larger Adjustment Range, High and Quick and Sensitivity Action, Adjustment Precisely, Stable and Reliable Component.

03

FIN HEAT EXCHANGER

Integral Internal Thread Hydrophilic Fin Heat Exchanger Membrane, Easy to Defrost and Stable Operating.

06

FOUR-WAY VALVE

Worldwide Famous Four-way Valve, Electromagnetic Coil Control Conversion System, Highly Anti-Electro-Magnetic Strength, Faster Control Respond.

PRODUCT EXPLODED DRAWING

Components from the well-known brand, more stable, environmentally friendly, and efficient.

01

FIN HEAT EXCHANGER

Integral Internal Thread Hydrophilic Fin Heat Exchanger Membrane, Easy to Defrost and Stable Operating.

02

FOUR-WAY VALVE

Worldwide Famous Four-way Valve, Electromagnetic Coil Control Conversion System, Highly Anti-ElectroMagnetic Strength, Faster Control Respond.

03

PLATE HEAT EXCHANGER

High Heat Exchange Efficiency, Lower Heat Loss, Compact Structure.

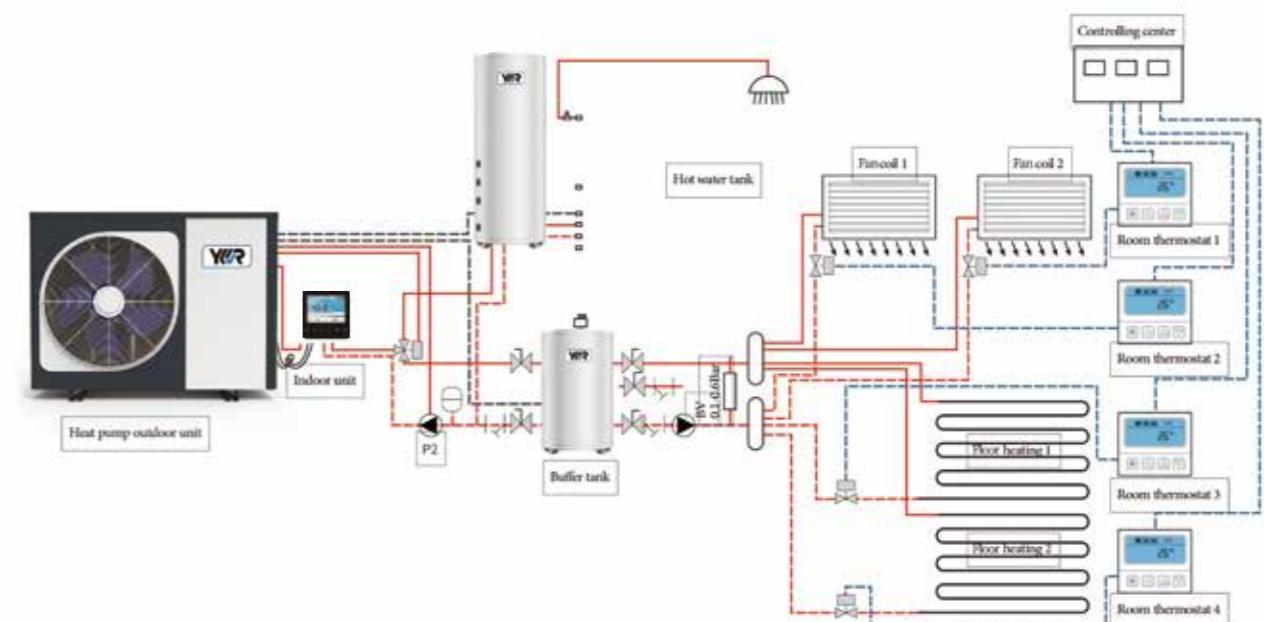

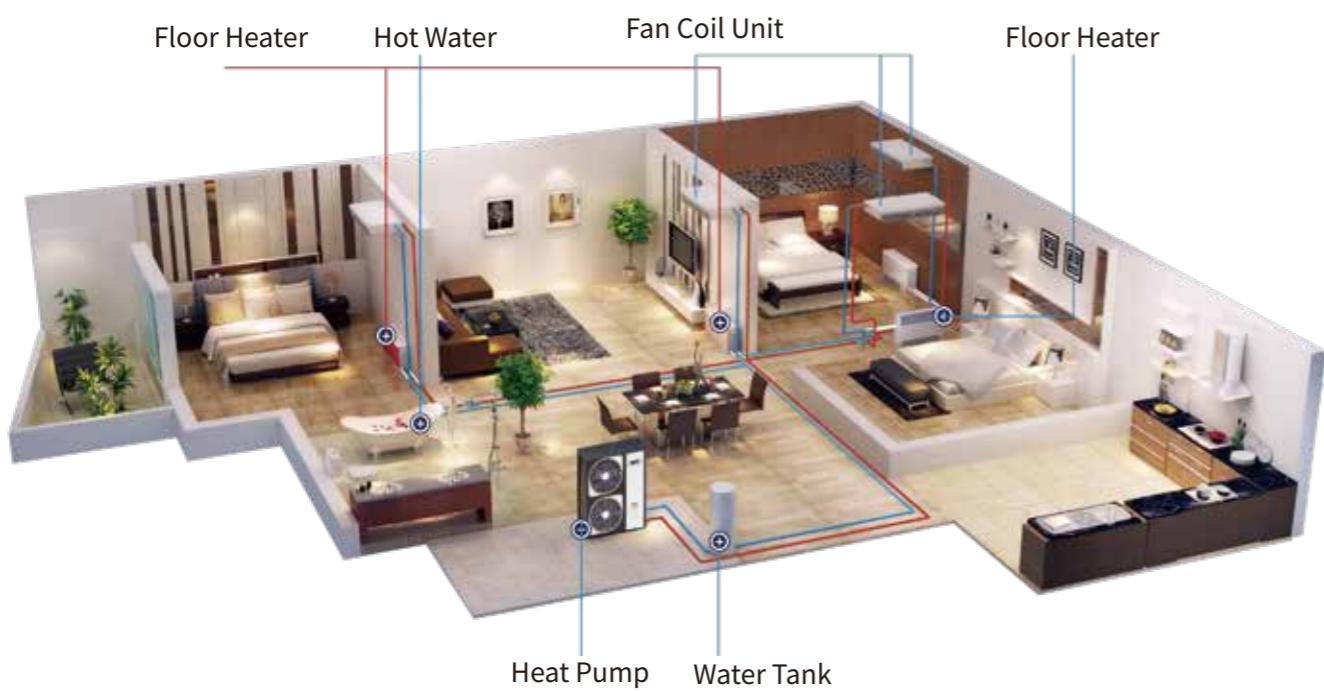

04

EVI-INVERTER COMPRESSOR

Panasonic from Japan and Emerson from the United States, heat pump frequency conversion compressors with Energy Saving, High Efficiency, Low Noise, and Stable Operation advantages.

EVI DC INVERTER HEAT PUMP

YKR's self-developed online intelligent remote control system has highly integrated control functions that can be accessed via a remote APP. The system is simple to use, stable in operation, and truly intelligent, achieving man-machine separation.

WATER-GROUND SOURCE HEAT PUMP UNIT BRINGS YOU A WARM HOME

□ Schematic diagram of water source heat pump system

Water (ground) source heat pump system is a kind of high efficiency and energy saving air conditioning system which can heat and refrigerate by using shallow underground geothermal resources.

Comparison of advantages of water - ground source heat pump units

约卡

It is not affected by the ambient temperature, the ground temperature is constant 16~18° C throughout the year, and the heat pump is at the high efficiency point all year round, and there is no defrosting attenuation

Constant temperature and humidity, more gentle air flow, moisture is not lost, mild not dry, winter floor heating

One part electricity, four parts heat,COP>4.5 on demand; The water system has strong cold/heat storage function, which can avoid unnecessary energy consumption

Other products

The efficiency of central air conditioning will decrease greatly when the weather is hot and cold, and the -5°C environment will defrost frequently caused low efficiency and affected the indoor feeling.

Evaporative refrigerant, blowing gas through cold or overheating, easy to get air conditioning disease, winter heating and drying effect is poor, will sometimes hot and sometimes cold.

Gas boilers with excessive heating costs due to low energy efficiency and high unit price of gas.

□ SWIMMING POOL HEAT PUMP

YKR MINI POOL HEAT PUMP

1. ON/OFF SYSTEM WITH R32 GAS.
2. HEATING ONLY.
3. PORTABLE MINI HEATER. PLUG & PLAY.
4. TITANIUM HEAT EXCHANGER, CORROSION RESISTANCE.
5. HIGH-END LCD SCREEN DISPLAY
6. INNOVATIVE ABS+METAL CASING
7. 32/38MM INNER WATER CONNECTION

	YKR-003TB1	YKR-004TB1	YKR-005TB1
* Heating Capacity at Air 26°C, Humidity 80%, Water 26°C in, 28°C out

YKR DC FULL INVERTER SWIMMING POOL HEAT PUMP ABS CASING

1. FULLY INVERTER WITH R32 GAS. HIGH-END MITSUBISHI.
2. HEATING & COOLING FUNCTION.
3. DC INVERTER FAN MOTOR. ULTRA QUIET OPERATION.
4. HOT GAS DEFROSTING.
5. INTELLIGENT LOGIC TO OFFER CONSTANT POOL TEMPERATURE.
6. ELECTRONIC EXPANSION VALVE
